In addition to the presidential candidates for delegates there will also appear on the ballot the names of fifteen freeholders who are to frame the proposed County Charter. The matter of voting for these will be a mere formality as there is no opposition ticket. In voting on presidential preference, each name on the group can be stamped or the whole ticket can be voted by stamping once in the square opposite. New voters, of whom there is a larger proportion than usual, may have a wrong impression as to the effect of a vote on the presidential preference ballot. In matters pertaining to a national political convention, the law is made and administered by the national committee of the party. No state has any authority whatever in the matter and the state vote is merely what it purports to be, an expression of preference. That this preference will be practically as effectual as if backed by legal authority, however, can scarcely be doubted. But in one respect there is considerable doubt as to the result when the matter of delegates comes up before the national committee to pass upon credentials. The call of the committee is for delegates to be chosen by Congressional districts. The state of California might vote as a whole by a large majority for either Taft or Roosevelt delegates, but it does not follow that all of the delegates supporting the favored presidential candidate would be admitted to the convention. Practically it would work out in this manner: Assuming that Roosevelt carries the state by an undisputed majority, it would not follow that the twenty-six delegates to the Republican National convention as passed upon by the committee would be Roosevelt supporters; some of the Congressional districts might have voted for supporters of Taft, some for LaFollette. There will be delegates at large from the state, these will doubtless be admitted in accordance with the result of the presidential preference as expressed at the polls. However the state may go next Tuesday, there is a good prospect of a mix-up at the convention. The voting places in Glendale are as follows:

GLENDALE CITY PRECINCT NUMBER 1.
Polling place, 247 Glendale avenue.

GLENDALE CITY PRECINCT NUMBER 2.
Polling place, Northwest corner First and Brand boulevard.

GLENDALE CITY PRECINCT NUMBER 3.
Polling place, Northeast corner Lomita and Brand boulevard.

GLENDALE CITY PRECINCT NUMBER 4.
Polling place, Southeast corner Sixth and Glendale avenue.

BROADWAY.

Fourth street in Glendale has no longer an official existence, except as to the records. It is now Broadway, and citizens may as well get busy and accustom themselves to the new name. That portion of the street west of Central and east of Glendale avenue is scarcely up to its new name, but it is hoped that the spirit of progress will some day inspire property owners to make it wider, so that it shall not be a misnomer.

A NEW INDUSTRY IN GLENDALE

Manufactory of Utahnite in Verdugo Canyon

A bright red automobile half as big as a street car has been noticeable on Glendale streets for the past week or more. It belongs to the Utahnite Powder company which has recently established a factory in the upper end of Verdugo Canon and is turning out its product at the rate of about two tons a day. There are eight or ten men employed at the factory, the work being practically all done by specially adapted machinery. Utahnite is the invention of a Utah man. The claim is made for it that it has twice the explosive power of dynamite and is practically safe under any ordinary conditions; that it explodes only when confined, burning freely and harmlessly in the open, and cannot be exploded by concussion. No cap is required to explode it and the explosion is almost noiseless except in rock. All of the material entering into the composition of the powder is obtained in California, except the potash, which comes from Germany. Los Angeles city is using Utahnite in its sewer work and in excavating in general.

At present the company is sending out a shipment over the Salt Lake road once a week and finds the demand growing so rapidly that its output will soon have to be greatly increased. Mr. E. D. Hostetter is president of the company which has offices in the Lankershim building.

TUESDAY AFTERNOON CLUB.

The members of the club are requested to meet promptly at 2:30 on May 14 at the Country Club. The program will precede the business session, as matters of importance are to come before the club which will require time. Mrs. Jane M. Beatty, president of the Highland Park Ebel Club, will talk on current events, and Miss Ethel L. Best, teacher in the Sixth street school, will sing. The location and purchase of a club lot will be decided at this meeting, the building and land committee having three proposition to offer. A full attendance of members is not only desired, but necessary, as, according to Article 3, Section 5, of the bylaws of the Tuesday Afternoon Club, no debts whatever exceeding the sum in the aggregate of $100 shall be incurred without the vote of two-thirds of the entire membership of the club, in good standing, or their written consent. Officers for the coming year will also be nominated at this meeting.

OFF FOR THE NORTH AND EAST.

Mrs. J. L. Whitaker and Miss Ina Whitaker of Ninth street left Sunday morning last for San Francisco on the steamer Queen, from San Pedro. A number of friends from Glendale, Los Angeles and Hollywood went to the port to see them off and wish a "bon voyage." Mrs. and Miss Whitaker expect to spend some three weeks in Alameda with Mrs. Wm. Mitchell, formerly of Glendale, thence going to Montreal, visiting a brother of Mrs. Whitaker. Later they will sail for England, and altogether expect to be absent several months, possibly a year.

CHAMBER OF COMMERCE.

Regular meeting will be held tonight (Friday) at I.O.O.F. hall at 7:45. All members are asked to be present.

CITY TRUSTEES

Telephone Co. Wants Franchise—Petitions for Opening and Improving Doran and Orange Streets—Census of City to be Taken—Monthly Reports

All members present except Mr. White.

Demands were read. A communication was received from the Pacific Tel. & Tel. Co. asking that a franchise be advertised for sale for the erection and maintenance of teelphone wires and poles. Referred to city attorney and engineer. A petition was received from F. S. Evans asking for employment as census taker; referred to public works committee. A communication from North Coast Cedar Co. in regard to furnishing posts for electric light department referred to Manager Lynch.

Mr. H. Hall appeared and protested against granting permit for a business establishment on Maryland avenue south of Broadway. A petition for opening and widening Orange street from north line of Milford and south line of Milford street, referred to city engineer. A petition for improvement of Doran street from Central avenue to Louise street and Maryland avenue from Doran street to north city limits, referred to city engineer. An application was received from E. H. Willisford to do street work by private contract on portion of Central avenue, granted. Application for similar privilege by F. R. Sinclair on portion of Isabel street, granted.

Monthly reports of the various city officials were received.

Bids for furnishing motor cycle were opened and read as follows: C. W. Risden, $219.50; A. Freed, $199 and $214.00, the latter for 5 horsepower; Los Angeles Motorcycle Co., $227.00; E. F. Merritt, $224. Referred to Manager of lighting department and finance committee.

Bids on cement as follows: Valley Lumber Co., 1450 sacks, per bbl. $2.15 net; Riv. Portland Cement Co., $2.15 net, per bbl.; Pacific Portland Cement Co., $2.50 gross; net price, $2.10; Litchfield Lumber Co., $2.55 gross; net, $2.15; P. L. Ferry, 63¾c per sack. Referred to manager lighting department.

Addressograph machine bids: H. S. Crocker Co., $101; A. L. Holman & Co., $114.60. Referred to manager of light department.

The city attorney reported on improvement of small portion of Glendale avenue adjoining the city of Tropico. His opinion was to the effect that the law is defective and he could see no way of legally improving this part of the street.

The city engineer was authorized to attempt to get the work done by private contract.

Mr. Coker of the supply committee reported that it would not be possible to get the kind of chairs desired for the city hall except after long delay and recommended that those in use at present be rented for the present. Recommendation adopted.

Trustee Lane reported in reference to taking the census of the city, recommending that the job be done by two men who would work for $3.00 a day. Upon motion of Mr. Coker a resolution was adopted providing for a taking of the census. (The object of the census is to comply with the law as a preliminary to the securing of a freeholders charter.)

The manager of the light department reported in favor of the acceptance of the bid of H. F. Crocker Co. for motorcycle for his department at $101. Considerable discussion resulted over the adoption of this report, as to what the effect would be, whether it would be left to the light department to make the purchase, or if that would devolve upon the supply committee. The duties of the supply committee were discussed at length and finally a motion prevailed that the lighting department be authorized to purchase the cement and the addressograph. This left the purchase of the motorcycle to the supply committee.

The supply committee was authorized to purchase additional furniture for the light department, made necessary by the growth of the business. The street superintendent recommended the purchase of a machine for the purpose of sanding the streets. Mr. Coker raised the question whether the money in the street fund would permit of the additional expense. Finally the superintendent was authorized to secure the sand spreader if on demonstration it was found to be satisfactory.

An ordinance was ordered to be prepared providing for the opening and widening of Orange street.

Mr. Severance appeared before the board and made inquiry as to the reported opening of a street along Child's tract line. He was informed that the engineer had been instructed to ascertain the wishes of the property owners as far south as Sixth street; nothing further having been done. An ordinance providing for the opening of Orange street was read first and second times.

An ordinance providing for the protection of the purity of the water supply passed third reading and was adopted. An ordinance establishing rates to be charged for electricity passed third reading and was adopted. A resolution providing for electric light standards in district number two was read and adopted. A resolution providing for a meeting to be held May 27th for the purpose of hearing protests on the street lighting improvement, was adopted.

Mr. Coker brought up the matter of the cesspool on alley near Brand which needed immediate attention and insisted that it be attended to at once, and the marshal was instructed accordingly.

W. C. T. U. NOTES.

Regular meeting of the W.C.T.U. will be held immediately after the afternoon meeting at the tent, Fourth street, Friday, May 17th. We all need the meeting previous to this one, conducted so ably by the evangelist, and we can do what we have to do in very short time. Come prepared to report to superintendents the work you have accomplished since March 1st.

State-wide prohibition in California now; national prohibition in 1920, is our slogan. Cry it all the time.

It is agreed by all true temperance workers that the prohibition of the liquor traffic is the only safe and sure solution of the liquor problem. Therefore state-wide prohibition is being fostered and encouraged as a means to an end.

The Woman's Christian Temperance Union has declared for nation-wide prohibition in 1920. To bring this about almost every state in the nation either has a prohibitory bill now pending in its legislature, or a bill is ready to be introduced at the next regular session. Through this means a campaign of education can be accomplished, the young people trained for total abstinence, and the best methods used for getting men into office who believe in prohibition and will enforce a prohibitory law. Physicians and teachers are helping in pointing out the need of scientific temperance instructions and principles. Business men are asking for clean men with sober habits. Railroad men want employes of clear brain and steady nerves. The liquor traffic stands condemned before the bar of justice by the supreme courts of our lands, by every intelligent voting citizen. It surely is doomed, and would long ago have been out of existence if professing Christians had not voted that they wanted it to stay. Now our fair sex has the ballot to either cast for evil to remain longer in our land or drive it out. Long have we been taught to choose associates, and a party that has no fascination for liquor sellers, gamblers and white slavers, truly offers a more desirable place for us, namely the platform that expresses our opinions, the Prohibition party.

Mrs. Hattie E. Gaylord, Pres.

WILL START BUILDING SOON.

The directors of the GLENDALE NEWS Company held a meeting Tuesday evening and decided to begin work on the one-story portion of their building at Broadway and Jackson, without further delay. This will be a one-story building of brick or cement on the lot facing Jackson street, to be joined later by a two-story structure fronting on Broadway. As soon as the building on the rear is completed the printing plant of the newspaper including a new linotype machine, will be installed. The latter has been ordered and will be ready for business as soon as the place is made ready for it. The company starts out with excellent prospects and will give to Glendale and vicinity an up-to-date paper, published as often as the demand will justify. Only one-half of the stock of the company will be offered to the public at present.

The officers and directors of the company are as follows: J. C. Sherer, president; J. W. Usilton, vice-president; Philip Engelhorn, secretary; F. H. Vesper, treasurer; Hartley Shaw, F. L. Muhleman, W. B. Kirk, D. Griswold, E. W. Haviland.

It is expected the tent will be crowded with men to hear this great discourse. Evangelist Handenschild is proving himself to be the strongest evangelist who ever visited Glendale. You cannot afford to miss his strong discourses during the few days remaining.

Glendale will journey to Pasadena next Saturday for its last game of the season, as a member of the league. They intend to put it over Pasadena if they can and still hold third standing in the finals of the league.

The chemistry classes are preparing to recite upon copper and mercury Tuesday, May 7th. A hilarious time is expected.

The second annual May festival was given by the girls of the high school Friday afternoon, May 3rd. The girls of the two lower classes furnished the entertainment, the Juniors and Seniors the refreshments. The audience seemed to be greatly pleased by the afternoon's program, judging by their various appreciative comments.

Change at Sanitarium

Mr. J. J. Wessels, who for the past three or four years has been manager of the Glendale Sanitarium, has resigned his position here and assumed the management and treasurership of the St. Helena Sanitarium at Napa, Cal. Mr. Wessels left Thursday for his new home.

Mr. T. Stephen Doak, who has just arrived from the east, takes the place of Mr. Wessels as manager and treasurer of the Glendale Sanitarium.

SAD ACCIDENT.

A little daughter of Mr. and Mrs. Fred Willard, at Burbank, was burned so badly Thursday of last week that she died within two or three hours. The mother had gone out to the drug store to get medicine for the little one, leaving it alone in the house for the few minutes of her absence. Returning, she found that the child had taken a brush, stuck it in the fire, and in playing with it set fire to its clothes. Dr. Thompson was called in, but too late.

Mr. J. Armin Metzger of Denver, Colorado, is visiting his sister, Mrs. Ralph L. Hinckley.

The seventeen members of the board of directors of Occidental College have backed down from their decision to give up the experiemnt of co-education, and that institution will continue to offer the opportunities of education alike to the young of both sexes. It does not seem that Dr. Baer and his associates have been converted to the belief that co-education of the sexes promises the best results, but have concluded to continue it for "prudential reasons."

BIRTHDAYS.

The editor of the NEWS had a birthday during the week which fact accounted for the fine floral display with which the editorial window was adorned. He has arrived at a point where the novelty of this annual affair has faded away and the date on the calendar which marks the day that he came squalling into the world, looks just like other dates to him. But it is a good thing to have stopping places along the up-hill road where one may pause, turn back and view the prospect o'er and say to those nearer the foot of the hill, "Brace up and climb straight on; there is a rarer atmosphere here than in the murk below, the view is better and there is a splendid light ahead." Then as he turns again to his work and looks for inspiration up the slope where others have toiled longer than he, perhaps his eye will catch sight of some happy Wanderer in the Fields Elysian, who will wave back to him a message of encouragement such as he has given to his fellows below, and he will be glad that the Almanac is keeping track of him.

GREAT EVENTS BEING OVERLOOKED.

The attention of the public has been so diverted to political matters and to the terrible catastrophe at sea for the past two weeks that matters of great and even world-wide importance have been practically overlooked. Almost no attention has recently been given by the public press to congressional proceedings at Washington, where matters of great interest to the people are pending. Even the revolution in Mexico receives scant attention, although among recent events there is an important rebel victory and the appointment of a provisional president by the insurrectionists. Only a few lines were devoted in the press dispatches the other day to the fact that Italy had taken possession of the Turkish island of Rhodes in the Mediterranean, an act that can scarcely fail to result in war between the two nations. Another matter of immense importance to the people of this country that has been given comparatively little attention is the calamity that has overtaken the state of Louisiana, where the floodwaters of the Mississippi have been higher than there is any previous record of, breaking over levees supposed to have been a perfect defense against this terrible element, and sweeping over hundreds of miles of fertile land, destroying millions of dollars' worth of property and taking its toll of human life. The government has exhausted a liberal appropriation made for relief, and it will become incumbent upon the people at large to come to the assistance of their unfortunate countrymen in the flooded districts.

A FREEHOLDERS' CHARTER.

The city trustees are about to order a census taken of the citizens of Glendale as a preliminary step towards securing a freeholders' charter, which may be obtained by a city having three thousand inhabitants or more. After this is done there will be a committee of fifteen citizens nominated and elected who will prepare the charter for the government of the city. After this is prepared it will be submitted to the voters for approval or rejection. If approved it will be submitted to the next legislature for approval, this usually being a form only, but legally a necessary one. As a city of the sixth class Glendale is governed at present under the general law applying to municipalities of this class. Many of our citizens imbued with the spirit of "progress" desire a change in the form of government and this can be obtained in the manner outlined. A charter may provide for all the new features of government which are now in demand. The manner of holding elections is one thing that will probably be changed and in this respect it will be generally admitted that there is a chance for improvement. A new board of trustees would have to be elected and the charter may provide for the control of city affairs by commissions, practically committees delegated to oversee different departments of the city affairs with full power to act. In fact, a charter may provide for any kind of a government which the people desire, provided it is not contrary to the constitution of the state.

THE LIQUOR QUESTION IN NORWAY.

In his recent lecture in this city, Mr. R. B. Baumgardt alluded briefly to the solution of the liquor problem which has been successfully worked out by tht people of Norway whom he characterizes as peculiarly "long-headed." Forty years ago the consumption of liquor in that country was so general and excessive that it was rapidly demoralizing the nation. The matter was taken up by the statesmen of Norway who pondered over it a long time. The system finally worked out has proved an unquestionable success and consists in a strict governmental regulation and discouragement of the traffic. The business is carried on by corporations consisting of respectable business men. The saloons are not provided with any adornments and are not furnished with seats or any other arrangements for comfort which would make them attractive. Frequently the dispenser of strong drink is a gray-haired woman who plies her needle in the interval "between drinks." The applicant for a drink is served good liquor and must drink it on the spot while there stares at him in the face an injunction to let it alone and possibly a picture of its dire effect upon the human stomach. If he wants a second serving he must go to another saloon which is several blocks away, and if he shows evidence of having had too much he cannot obtain it anywhere. Adjoining the dispensary is a refreshment room where temperance drinks and other refreshments are served, this place is made attractive by pleasant furnishings, the daily papers and other literature, pictures and pleasant surroundings generally. The last named part of the establishment may be a money maker, but the regulations controlling the sale of liquor are such that the saloon can rarely pay good interest on the investment. The result of this system in Norway has practically done away with drunkenness, there is no demand for "Prohibition," personal rights are recognized and the drink problem no longer vexes the country.

THE STATE-WIDE PRIMARY.

As the returns come in from states which have tried the new ideas of government "by the people," the unprejudiced student of political problems must confess that recent laws with that object in view are not achieving results. Massachusetts and Maryland are recent examples and next week another will be added by the state of California. The former state certainly has an intelligent population, certainly its proportion of illiterates is small, and yet the result of the primary election shows that the people by their ignorance of political matters and particularly of the practical business of voting, very nearly if not altogether defeated their own object. It is estimaed that ten thousand voters had their ballots rejected because they voted for nine delegates at large for Taft when there were only eight to be elected. So apparent was the miscarriage of the voters' intentions that Col. Roosevelt very properly requested the delegates supporting him who had an apparent majority, to vote for his opponent. In the state of Maryland the result was worse than in Massachusetts, but from a different cause. In that state the city of Baltimore dominates the state politically. In that city the majority of the voters at the primary were negroes. The Baltimore negro is notoriously venal and there is no good reason to suppose that in the recent election in Maryland his apparent admiration for Roosevelt was registered without a reward. The result is that the whole state must be judged by the expressed opinion of a job lot of its least representative citizens. Turning now to California there are two large cities in the state, San Francisco and Los Angeles. If the state were divided by the Tehachapi mountains, the southern portion would probably declare for Roosevelt because of the vote of Los Angeles, and the northern portion would be one way or the other. As it is, the governed by the vote of San Francisco "State-wide Primary" deals with the state as a whole and the vote of those two cities combined will represent the state. If the people are really governing, what is the use of being at the expense of an election anywhere in the state outside of those two cities? And where do the intelligent people of the state come out in the end? President Taft was absolutely right when he declared that "This is a government of the people by a representative part of the people," and it must in the nature of things remain so.

TEN REASONS WHY I AM A SOCIALIST.

(First four reasons in previous issue.)

Fifth. The defenders of our present competitive system of business insist that "No legal restraint shall be put upon the incentive of the individual to privately own all the wealth of the earth if he can acquire it by speculation, profit or war, and transmit such wealth to his heirs, even though neither he nor they created a dollar of that wealth." Socialism says that competition, strife, contention, selfish greed—"the law of tooth and claw"—were necessary to the beasts of the jungle, and to the cave dwellers of pre-historic times, but that the system does not fit this age of steam and electricity and general intelligence. It has, in fact, become a gigantic evil in the hands of the few greedy exploiters of the masses, and must give way to a better system. Socialism says there are higher incentives than greed and a desire to get something for nothing. Socialists therefore propose to establish an industrial system in which every person shall have the right to do whatsoever he wishes, provided that in the doing thereof he infringes not the equal freedom of any other person. Socialism would thus put a curb on the incentive of the human hog for the good of mankind, while at the same time, it would stimulate the incentive of all to deal justly with their fellow men. Socialism does not advocate equality of wealth, but equal opportunities to acquire wealth. Such opportunity cannot exist in an industrial system under which a few adroit schemers can acquire the private ownership of all the land, the power of steam and electricity and the labor-saving machinery and monopolize all the means by which the masses must live, thus forcing the millions into the wageworking class, where they can own nothing but their labor power.

Sixth. I am a Socialist because Socialism says, "No man can advance his best interests by trampling others down, for God, or Nature, has so interwoven the happiness and well-being of every human soul into one inseparable bond of unity and interdependence that what is the natural right of all "that an injury to one is the concern of all."

Seventh. I am a Socialist because Socialism is opposed to war and has high ideals. It appeals to man's sense of justice and right. I oppose the competitive system because it champions war and contention, and has low ideals, and makes its appeals to the selfish in man. Socialism says, "One for all—all for one." Competition (or individualism) says: "Every fellow for himself and Satan take the hindmost."

Eighth. I am a Socialist because, while Socialism deals exclusively with economics and civil government and says nothing about religion, a careful examination of its principles reveals the fact that it is in strict harmony with the life and teachings of Jesus Christ.

Ninth. I am a Socialist because Socialism squares with the Golden Rule: It stands for justice; it opposes war; it would abolish poverty; it protects children and other dependent persons; it fosters the incentive in all to deal justly with their fellowmen; it would take the children out of the mills, shops and mines, and put them into school; it would pension and make comfortable the aged; it would enfranchise women; it would abolish monarchies and plutocracies, and establish pure democratic governments and by preventing monopoly and guaranteeing a just distribution of wealth among all the people, rewarding every adult according to his labor, would establish a righteous government.

Tenth. Socialism is a world-wide movement; it stands for the same things everywhere; it now numbers fifty millions of adherents; it is coming because the time is ripe for it; the law of evolution is bringing it; no human power can stop it; it is the next logical step to be taken by civilization. When it has arrived in all its fullness, kings, plutocrats, monopolists, and all selfish robbers of their fellowmen, will have disappeared; there will be no strikes, nor blacklisting, nor dynamiting, nor war; there will be no unemployed; poor girls will no longer sell their bodies for bread; the jails and insane asylums will contain few or no inmates; there will be no beggars in the land and no festering slums in the cities; there will be no pale-faced, half-starved women working in sweatshops; no tender children enslaved in shops and mills. Then labor will receive its just reward; peace and prosperity will cover the earth; then life will be worth living. For these and other reasons we are Socialists.

LOS ANGELES THEATRES

BELASCO—RETURN OF LEWIS S. STONE.

Lewis S. Stone, about as well liked and capable an actor as ever played with a local company, will make his re-appearance tomorrow night at the Belasco theater. Stone will be seen in the titular role in "The Virginian."

Mr. Stone has just terminated a remarkably successful engagement in his original role in "The Bird of Paradise," in New York. The Gotham critics declared him to be a newcomer to the metropolitan stage who possessed all the characteristics of a real actor and "The Bird of Paradise" audiences concurred in this critical opinion.

Mr. Stone's engagement at the Belasco is of limited duration. In the early fall he will return to "The Bird of Paradise" cast. During his stay at the Belasco, Stone will be seen in a round of parts especially well adapted to his virile, modern method style of acting.

The first play that will occupy Stone's attention is Owen Wister and Kirke la Shelle's "The Virginian," long regarded as the best of the numerous plays of the western country.

The list of players required for "The Virginian" is an exceptionally long one and the production will engage every member of the Belasco organization as well as a score of specially engaged players.

But the main thing concerning the performance of "The Virginian" at the Belasco is that it will bring back to Los Angeles Lewis S. Stone, its favorite actor.

BURBANK—LAURETTE TAYLOR IN SEVEN SISTERS.

Laurette Taylor, one of the most popular and cleverest stars of the American stage, will commence a special starring engagement of limited duration, with the Burbank Stock company Sunday afternoon.

Miss Taylor's first appearance at the Burbank will be in her original role in "Seven Sisters." This is a breezy, buoyant comedy, taken from a Hungarian source. It was produced by Daniel Frohman in New York and Chicago last season with much success. It is new to the theater-goers of Los Angeles, and incidentally the Burbank performance will be the first time the comedy ever has been made use of by a stock organization.

Both in New York and Chicago, the dramatic reviewers declared Miss Taylor to be simply irresistible and bewitching in the principal feminine part in "Seven Sisters." Her comedy moments were beautiful evidences of a talent for provoking smiles and laughter; her serious scenes were given with a dramatic intensity that was quite uncommon and notable, while her vivacity, her ingeneousness, and her captivating personal charm made Miss Taylor's assumption of a young school girl—sent home for an infraction of rules a constant delight.

The management of the Majestic Theater will invite playgoers next Monday evening to renew acquaintances with the delightful art of Margaret Anglin, who will appear there one week, in the new comedy by A. E. W. Mason, entitled "Green Stockings." As Celia Faraday, Miss Anglin is said to have a role that differs materially from anything that she has heretofore attempted since she has been a star. Her new departure is interesting, and it will be a pleasure to welcome her in another phase of her art. From time to time she has shown flashes of power as a comedienne, and she is to be congratulated for having abandoned emotional work for a season.

Celia is one of four daughters having a widowed father. She is the brightest and wittiest of them all, yet she is the only one of the girls neither married nor engaged. The old English custom of girls unmarried and unengaged wearing green stockings at their sisters' weddings has been strictly followed by the family, and Celia, having worn them twice, is threatened with the immediate necessity of having to don them a third time. Then she springs a surprise. She is engaged, and her finance sailed abroad with his regiment that morning. He is Colonel Smith, so she said, but he only exists in her imagination. Congratulations are showered upon her and her brain is racked for details concerning his personality. Celia rises to the situation and emerges triumphantly a formally engaged young woman.

INTERNATIONAL PRESS. BIBLE QUESTION CLUB.

We commence today the publication of a series of suggestive questions on the International Sunday School Lessons. For some time past these weekly questions have been stirring a great deal of national interest. They are published in nearly a thousand newspaper towns and are studied by millions of readers. They are received warmly by the public and enthusiastically endorsed by clergymen of all the churches. Sunday school superintendents, teachers, and adult Bible class scholars use them in every town where they are published, and the general public are much interested.

Contracting for this unique Bible study question service forms the GLENDALE NEWS and its readers into a local club of one of the classes of the International Press Bible Question Club, and gives the right for all our readers to compete for some very valuable prizes. There are four classes organized each year composed of the newspapers which take up the publication of these questions at four different periods, viz: Those that commence April-June are Class A; July-September are Class B; October-December are Class C, and January-March are Class D. Hence the GLENDALE NEWS local club belongs to Class A. There are fifty valuable prizes to be given to our Class: Five solid gold medals, five sterling silver medals, five teachers' Bibles, price $5.50 each, and thirty-five copies of the book, "The Heart of Christianity," price $1.50. The medals are specially designed and engraved and each will be inscribed with the name of the winner. The conditions of the contest are so simple that any person can comply with them. The contest will not commence until the questions have been published thirteen weeks, in order to give everybody a chance to become familiar with them. One condition is that the questions must be read each week, and as the NEWS will be necessary for this, you had better send in your subscription on the attached coupon.

French Burial Customs.

The ancient custom of depositing valuables in tombs still prevails in France. But it is not only jewels and the like that are buried with the dead. A few years ago it was the custom in La Vendee to put a polished stone within reach of the corpse. This was supposed to guide the dead on his new journey. In the district of Dinan a piece of bread was used for the same purpose. The people of the Bordeaux district place in the coffin a sprig of myrtle blessed at Easter. This is considered to insure entry into paradise. On the borders of Brittany and Poitou a little pebble is placed on the tongue of the deceased. Without this it is thought he might plead his cause before the great tribunal with such volubility as would insure his condemnation without appeal.—Journal des Debats.

PRESIDENT TAFT RESENTS INSULTS

Attacks of Theodore Roosevelt Full of Falsehoods.

PATIENCE IS EXHAUSTED.

Misrepresentation, Vilification, Abuse and Assaults of the Rough Riding Colonel Will Not Longer Be Tolerated—Former President Would Wreck the Party.

After enduring with infinite patience not only because of the dignity of the high office which he holds, but also because of the personal friendship which he has enjoyed and had hoped to maintain with former President Theodore Roosevelt, President William H. Taft has finally been forced to resent the misrepresentations of his actual position on public issues, the untruths which have been uttered with respect to his official actions and to the conduct of this campaign and attacks upon him which not infrequently involved his personal honor as a man as well as his integrity as president of the United States.

The president and his campaign managers have sought throughout this campaign by a dignified and fair course of conduct to maintain the Republican party as a militant power for good in the land, with a view to another triumphant victory at the polls in November.

On the contrary, Theodore Roosevelt and his friends and backers have conducted an organized campaign to wreck the Republican party, not only by engendering personal animosities by attacks on individual leaders of the party in various states, but by offering and supporting a national platform which is rank socialism. As a result of this situation Director William B. McKinley of the national Taft bureau issued the following statement to the public on April 14:

"The outcome of the Pennsylvania primaries is plainly indicative of the fact that national issues are playing only a small part in some states in the campaign for the Republican nomination for president.

"Instead of constructive statesmanship being put forth in an effort to solve the problems before the country and as a bid for votes on the ground of merit, a nation wide campaign of willful and malicious misrepresentation, vilification and assault on the president of the United States has been substituted. Such a campaign, amounting in fact to a conspiracy, not only to humiliate the president personally but to commit the Republican party to rank socialism, has been countenanced and conducted by former President Theodore Roosevelt.

"The time has arrived to call a halt on such proceedings.

"President Taft, always mindful of the decencies of human conduct, believing that friendship is a sacred thing and that, like truth, it should be maintained even at a personal sacrifice, and also believing that the American people expect the occupant of the highest office in the gift of the nation, as well as those who have formerly occupied it, to respect the dignity of that office, has during the course of this campaign patiently submitted to misrepresentation, vilification and insult without reply.

"The result is that his opponent has thrown all restraint to the winds. Senator Joseph M. Dixon, the national campaign manager of former President Roosevelt, has been permitted, without rebuke from his candidate to insult the president of the United States. He has not only been permitted to charge the president with being 'a receiver of stolen goods,' without protest, but former President Roosevelt has repeated the charge on the stump.

"The time has now come when the American people will no longer sit idly by and see this unfair and malicious persecution and vilification continued by a man and by the friends of a man who has already served two terms in the White House by the votes of the Republican party and who now, not only in violation of the unwritten law of the republic, but in violation of his own solemn promise to the nation, voluntarily given on the night of Nov. 8, 1904, is seeking a third term on a national platform so unrepublican in nature that he dare not discuss it himself, as is shown by his recent speeches in Illinois, Pennsylvania and New Hampshire.

"The fact that this candidate is now claiming to wear the mantle of Abraham Lincoln is evidence that the acme of demagogism in this country has been reached.

"Those states which have yet to elect delegates to the Republican national convention in Chicago might just as well realize now that the republic as well as the Republican party has been placed in jeopardy by the issues raised by Theodore Roosevelt. They must realize that the unwritten law of the republic that no man shall be president three terms is an insurmountable obstacle to the success of any party in any national election in this country. They must realize that the proposal of the recall of judges and of judicial decisions is not only unrepublican, but rank socialism. The duty of Republicans toward such a platform and toward a candidate for the nomination on such a platform is therefore plain.

"The president is in this fight to stay. He will be the nominee of the Republican convention at Chicago. In this connection it must not be forgotten that he was nominated four years ago without the votes of the states of Illinois, Pennsylvania, Indiana, New York or Wisconsin. In this contest he is already assured of an overwhelming majority of the delegates from Indiana and New York and of a large number of delegates in Pennsylvania, none of whom voted for him in 1908."

REINCARNATION.

COVERING HIS TRACKS.

Roosevelt Attacks Penrose, but Takes Up Notorious Boss Flinn.

In Pennsylvania, in an attempt to divert attention from his socialistic Columbus (O.) speech and from William Flinn of Pittsburgh, his Pennsylvania manager, Theodore Roosevelt attacked President Taft and Senator Boies Penrose. The fact is that there is not a character in public life today who has the notorious record of "Old Bill" Flinn, and Roosevelt did not dare mention his name in Pittsburgh.

Until 1901 Flinn was the "boss" of Pittsburgh. He was run out of power by the decent people of that community. In the few years he "bossed" Pittsburgh Flinn received from men he put in public office contracts aggregating more than $21,000,000, as is shown by the public records.

In 1895 Flinn attempted to make a contract with Matthew Stanley Quay, United States senator, which he wrote out in his own hand, a copy of which is still in existence. In this document Flinn bound himself to deliver to Quay the votes of all Pittsburgh and Allegheny county legislators and congressmen and all delegates to state and national conventions, in return for which Quay was to protect Flinn in his private and political business in the legislature of the state.

The proposition was so rotten that even Quay turned it down.

This is the man Theodore Roosevelt, former president of the United States, has resurrected into political life under the plea of "Let the people rule."

PATRONAGE LIE NAILED.

Roosevelt the Most Notorious Patronage User In History.

The hypocrisy of Theodore Roosevelt has not been better illustrated in this campaign than by his charge that President Taft has used federal patronage to secure his renomination.

No president of this country ever used patronage as did Theodore Roosevelt to secure his nomination in 1904.

He used it without stint to defeat his enemies in the campaign of 1908.

In this campaign his own appointees, retained by President Taft, have, in answer to his call, worked against President Taft.

In Montana his campaign manager, Senator Joseph M. Dixon, has compelled every federal officeholder he can control to violate all civil service rules and the executive orders issued by President Roosevelt himself.

In Texas Cecil Lyon, the personal friend of Roosevelt, has coerced the federal officeholders to support Roosevelt and has demanded of them a "slush fund" to defeat Taft. Lyon recommended, on his own admission, all but five of 5,000 officeholders in Texas.

The state machines, under the control of the "Roosevelt governors," have been solidly aligned against Taft in seven states.

Senator Dixon, in a letter which the Taft managers now hold, has threatened to oppose in the senate the confirmation of federal officeholders who have expressed their preference for Taft. If this is not intimidation and indirect bribery, what is it?

STANDING OF CANDIDATES.

President Taft now has 388 delegates to the Chicago convention instructed for or pledged to his renomination. His support is of such character as will vote for him first, last and all the time. Mr. Roosevelt has 170 votes, Senator La Follette 36 and Senator Cummins 6.

"POPULAR DEMAND" OR MONEY—WHICH?

Cost of Roosevelt Boom Exceeds That of Last National Campaign.

The financial backers of Theodore Roosevelt have expended to date nearly $1,000,000 in an endeavor to renominate the former president for a third term. How this money is used and where it comes from are of interest to all citizens.

In Oklahoma the charge has been made that the Roosevelt managers paid $75 a vote to delegates to conventions. This is the state where Mr. Roosevelt said there was a "genuine primary."

The same "crew" has since "worked" Kansas and Nebraska and is now in Arkansas, as witness the following telegram:

Roosevelt managers are using money under the guise of paying wages to workers, another name for bribery.

In Pennsylvania, instead of standing at the polls and handing each Roosevelt voter a five dollar bill, "due bills" were issued calling for this amount which were collected at headquarters when countersigned by the district leaders. It is estimated that $100,000 was expended in this manner. This would "reach" 20,000 voters.

In New York county the Roosevelt managers expended a quarter of a million dollars. One district leader paid $10,000 out of his own pocket in his own district on promise of reimbursement besides what headquarters sent him.

In Chicago two men contributed $7,000 for use in one district on primary day, and $200 was offered eight precinct captains to desert Taft.

Where is the money coming from?

George W. Perkins, director of the International Harvester company and of the United States Steel corporation, neither of which Theodore Roosevelt ever harmed, but, on the contrary, defended as president and defends now, is the "head of the barrel." Frank A. Munsey, a large holder of steel common stock, is a close second. In addition Gifford Pinchot, John F. Bass of New Hampshire, who ran the Roosevelt campaign in North Dakota; Governor Chase Osborne and Truman H. Newberry of Michigan; Chauncey Dewey and Alexander H. Revell of Chicago; Thomas Niedringhaus and Walter Dickey of Missouri and a host of others in the Roosevelt fold are millionaires or multimillionaires. Incidentally Theodore Roosevelt himself has made a million dollars since his return from Africa. He once said "no man could make a million dollars honestly in a lifetime."

LEST WE FORGET!

That Theodore Roosevelt hauled down the tariff revision flag from the White House at the request of Senator Nelson W. Aldrich and Speaker Joseph G. Cannon.

That Theodore Roosevelt once said in a letter, "Can we antagonize the Morgan interests, which have always been so friendly to us?"

That the International Harvester company and the United States Steel corporation are "Morgan interests," that they are represented in the Roosevelt headquarters by George W. Perkins, the chief contributor to the Roosevelt campaign fund, and that Theodore Roosevelt has not mentioned any Morgan interest or friend of Morgan in this campaign except to defend it or him.

That Theodore Roosevelt refused, after he had ordered the suit filed, to permit the prosecution of the International Harvester company and that he reached this decision after a visit from George W. Perkins.

That Medill McCormick of the McCormick family is one of the most active supporters of Theodore Roosevelt.

The Tribute of the Powhatans.

What is perhaps the most interesting ceremony to be witnessed in the United States takes place at the state capitol at Richmond on Feb. 16 of each year. It consists of the delivery of the annual tribute of the Pamunkey river Indians, representing a surviving tribe of the Powhatan nation, to the governor of Virginia. The manner of the presentation of the tribute is simple. The chief and the head men of the tribe upon the appointed day appear at the capitol bearing baskets of ducks and fish and lay the baskets at the feet of the governor. The few and simple words which are spoken are traditional and do not vary. Originally the tribute consisted of venison, ducks and fish, each of the finest and representing the dominion of the state of Virginia over the animals of the forest, the birds of the air and the fish of the waters, but the state law establishing a closed season for deer now prevents the Indians from including venison in the tribute.—Harper's.

(2.) What is implied in loving our enemies?

(3.) Why is it, or not, natural for us to love our enemies?

(4.) If being desirous of loving our enemies and we do not succeed, what means should we adopt to accomplish our desire?

(5.) Verses 29-30—Granted that it is the duty of all of us to love our enemies, is it also our duty under all circumstances when we have been smitten on one cheek to turn the other also and if one steals our cloak to let him steal our coat also? Give your reasons.

(6.) If a man is not willing to turn the other cheek and give up his coat after having his cloak stolen, provided this was the will of God in any given circumstance, what would you say of such a man?

(7.) Why is it, or not, essential for a Christian to hold himself in readiness to do anything God may clearly command, no matter how unreasonable it may look to him? (This is one of the questions that may be answered in writing by members of the club.)

(8.) Verses 31-34—Wherein ought a Christian to be better than a sinner in his treatment of his fellows?

(9.) Is it easy or difficult, and why, for a truly good man to literally treat others as he would like to be treated?

(10.) When Christian men loan money does Christ mean that they should not be careful to be properly secured, or does he simply mean that there is no more merit in such a transaction than an ordinary sinner would be entitled to?

(11.) Verses 35-36—Which is generally the better way to help those in need—to loan them money without security or to give it to them?

(12.) What is the reward or profit for loaning money without security to the needy with the sole object of helping them?

(13.) What is implied in being merciful as God is?

(14.) Verses 37-38—What does Jesus mean by judge not, condemn not and forgive, and what results follow such actions?

(15.) What right have we to expect if we give liberally of our money that God will cause our fellow men to give with superabundance to us?

(16.) Rom. xii:8-10—In what spirit should we give, rule and show mercy?

(17.) What relation has Christian love with right living?

(18.) To what extent does love make us prefer others to ourselves?

about our lumber is not our policy. Those who know our lumber don't have to be told how sound, straight grained and thoroughly seasoned it is. Those who don't know our lumber should get acquainted. They, like the others, will surely find the acquaintance an advantage in more ways than one.
